I ran the following command from the terminal: sudo npm install -g http-server I'm fairly new to Node.js, and I'm having trouble figuring out how to get my previous settings back. The answer must be super simple, but I'm a Linux noob and I'm probably just overlooking something. A: Here's what you can try: npm remove http-server -g Or if it's already installed, remove it from the path: npm uninstall http-server -g It should give you a suggestion of what other packages it needs to install if there are conflicts. If it does, then you can try reinstalling all of them: npm install -g http-server 2d92ce491b
